

Price List

Price list of BioMath software products valid from 2009-11-1

All prices are gross prices (inclusive 19% VAT) plus 12.50 EUR forwarding charges.
Shipment includes CD-ROM and manual as Acrobat PDF.

CADEMO - Standard

	single user license	network license (3 Clients)
Complete Version includes all modules listed below	738.00 EUR	1220.00 EUR
Sample Sizes determination of sample size and achievable accuracy for <ul style="list-style-type: none"> • analysis of variance • estimation and test of means • estimation and test of variances • selection procedures • linear regression with one adjustable factor 	369.00 EUR	615.00 EUR
Experimental Designs construction of experimental designs like <ul style="list-style-type: none"> • completely randomized designs • factorial designs • block designs • central composite designs 	92.00 EUR	153.00 EUR
Field Trials design and layout of field trials	123.00 EUR	205.00 EUR
Non-Linear Regression model choice, regression and optimal experimental design for non-linear growth curves	123.00 EUR	205.00 EUR
Bioassay experimental design for bioassay experiments	82.00 EUR	133.00 EUR
Quality Control statistical experimental design in quality control	61.00 EUR	102.00 EUR
Population Genetics experimental design for estimating genetic parameters	61.00 EUR	102.00 EUR

CADEMO - Light

	single user license	network license (3 Clients)
starter package for designing experiments – determination of sample sizes for estimations and tests, and construction of experimental designs	123.00 EUR	205.00 EUR

CADEMO - Education

		network license (15 Clients)
complete version (only for educational purposes)		2051.00 EUR

TRIQ

	single user license	network license (3 Clients)
design and analysis of triangular sequential designs	246.00 EUR	410.00 EUR
